## Product Description

**Ergonomic design** Designed for ambidextrous use, this mouse prevents unnecessary strain on your hand to enable comfortable grip and pleasant use even during your longest games. Confidence is good, control is better. Your V20S offers you 5 individually customizable buttons to which you can assign a wide range of functions and macros.

**Adjustable DPI gaming sensor** Precise down to the last pixel. With the latest generation of VPRO Gaming Sensor, accuracy is no longer left to chance. Adjustable from 500 DPI to 3000 DPI, and with an image-processing rate of 6400 FPS, it's the perfect match for your incredible skills.

**Accurate navigation** A professional gaming optical engine with an image-processing rate of 6400 FPS, 60 inch/s tracking speed and up to 1000 Hz USB report rate, ensures perfectly accurate tracking. Onboard memory, save and play

Built-in memory to save the mouse configuration (macro, DPI setting, and breathing light mode) in the game mode. You can play the way you want it, on any computer without the help of any software. **LED Multi-color light system** with 16 million colors What does it do? It turns blue, green, or... V20S has an LED multi-color light system, which lets you customize the appearance of your mouse in many ways as well as to suit your preferences. The V20S features an APM-lighting mode that reflects your actions per minute with a spectacular light show.
